

2018 Lake Isabella Property Owners Association - Fish Fund donation request

If you, your kids, relatives, or friends fish in Lake Isabella, please read on and consider taking part in continuing to improve our fishery by making a donation to the 2018 LIPOA Fish Fund.

In 2011 I began the Fish Fund donation program to plant game and forage fish in Lake Isabella and it was so well received that in 2012 the program was transferred over to the LIPOA and they opened an “LIPOA Fish Fund” specific bank account for the fish stocking donation program and to date we have received over \$22,000 in donations. Thanks to those generous donations we have planted over 7,000 walleyes in the 5 to 9 inch range, over 250,000 fathead minnows which spawn every 30 days during the summer, 860 3 to 5 inch red ear shell crackers (pan fish), and 860 – 6 to 8 inch silver catfish.

We’ve been open to suggestions from donors pertaining to what species of fish we will plant and that will be no different in 2018. The last plant was in fall of 2016 and we planted red ears and catfish for the first time as well as walleye’s and fathead minnows.

The catfish are doing well as I’ve spoken with 2 residents that have caught them and I saw a dead one floating last weekend and they are already 12 inches long and my wife also caught a 15 inch walleye from a previous plant last weekend while fishing for bass.

Donors will be recorded by name (or business if preferred), address, phone number, and optional e-mail address. E-mail addresses will be used to update donors on what gets planted and when and at what launch the plant release will occur.
